PROFILE

Full Stack Java Developer and Computer Engineer with 3+ years of hands-on experience building web applications end to end. Comfortable across React JS interfaces, Spring Boot, Node.js and PHP back ends, REST APIs and SQL databases. Focused on clean interfaces, dependable APIs and performance that holds up in production.

SELECTED PROJECTS

CampusConnect — SPRING BOOT · REACT JS · SQL

College event and attendance portal with a Spring Boot API, a React JS interface and a SQL database for events, registrations and attendance records.

InvoiceHive — JAVA · REST APIS · SQL

Invoicing dashboard for small businesses with REST APIs, role-based access and a SQL-backed record of clients, invoices and payments.

TaskRoost — REACT JS · NODE.JS · SQL

Team task manager with a React front end, a Node.js API and SQL storage for projects, assignments and progress tracking.

CORE SERVICES

Frontend development · Backend engineering · REST APIs · Database design · Performance · Support
